5.5 Transfer requirements for international students

RTOs must not knowingly enrol an international student seeking to transfer from another registered provider's course prior to the overseas student completing six months of their main course (or for the school, sector, until after the first six months of the first registered school sector course), except where any of the following apply:

- The releasing provider, or the course in which the overseas student is enrolled, has ceased to be registered
- The releasing provider has had a sanction imposed on its registration by the ESOS agency that prevents the overseas student from continuing their course at that provider
- The releasing provider has agreed to the overseas student's release and recorded the date of effect and reason for release in PRISMS
- Any government sponsor of the overseas student that considers the change to be in the overseas student's best interests and has provided written support for the change.

The RTO must have and implement a documented policy for assessing overseas student transfer requests prior to the overseas student completing six months of their principal course (or for the school sector, until after the first six months of the first registered school sector course). The policy must be made available to staff and overseas students, and outline:

- The steps for an overseas student to lodge a written request to transfer, including that they must provide a valid enrolment offer from another provider
- Circumstances in which the provider will grant the transfer because the transfer is in the overseas student's best interests, including but not limited to where the provider has assessed that:
 - The student will be reported because they are unable to achieve satisfactory course progress at the level they are studying, even after engaging with that registered provider's intervention strategy to assist the overseas student in accordance with the Overseas student visa requirements
 - There is evidence of compassionate or compelling circumstances
 - The provider fails to deliver the course as outlined in the written agreement
 - There is evidence that the students' reasonable expectations about their current course are not being met
 - There is evidence that the student was misled by the provider or an education or migration agent regarding the provider or its course and the course is therefore unsuitable to their needs and/or study objectives
 - an appeal (internal or external) on another matter results in a decision or recommendation to release the overseas student.

If a release is granted, it must be at no cost to the student and the releasing registered provider must advise the student to contact Immigration to seek advice on whether a new student visa is required.

If the registered provider intends to refuse the transfer request, they must inform the overseas student in writing of:

- the reasons for the refusal
- the overseas student's right to access the provider's complaints and appeals process, in accordance with Standard 10 (Complaints and appeals), within 10 working days.

The provider must not finalise the student's refusal status in PRISMS until the appeal finds in favour of the provider, or the overseas student has chosen not to access the complaints and appeals processes within the 20-working day period, or the overseas student withdraws from the process.

The registered provider must maintain records of all requests from overseas students for a release and the assessment of, and decision regarding, the request for two years after the overseas student ceases to be an accepted student.
